PAGE 4 • PASSIONS & PURSUITS

Interests & Creative Hobbies

Beyond academic lectures and business computing assignments at UMSKAL, these three pursuits keep my mind sharp, my creativity flowing, and my analytical reflexes primed.

All Hobbies
Gaming (PC & Mobile)
Coding (Java & C++)
Video & Audio Editing

PC & MOBILE

Gaming: PC & Mobile

Engaging in diverse game worlds, from tactical teamwork in Valorant and fast paced battle arena strategy in Mobile Legends, to creative architecture, survival, and redstone logic in Minecraft. Gaming sharpens spatial awareness, rapid decision making, and team communication.

PLATFORM
PC & Mobile

CORE TITLES
Minecraft • MLBB • Valorant

Gaming Lore 🎮

Gaming Insight

PROGRAMMING

Coding & Software Logic

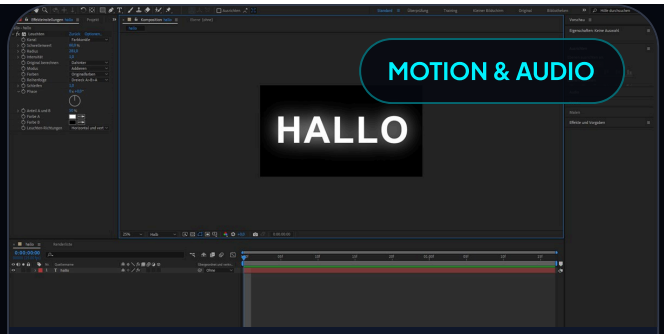

Writing clean, structured software with core focus on Java, C++, and object oriented systems. As a Business Computing student, coding builds algorithmic thinking to solve complex computational challenges.

CORE FOCUS
Java • C++ • Logic

MINDSET
OOP & Algorithms

Coding Stack 💻

Why I Code

POST PRODUCTION

Video & Audio Editing

Crafting dynamic video sequences, keyframe animations, and synchronized audio tracks in Adobe After Effects. My focus centers strictly on video cuts, visual rhythm, motion graphics, and immersive sound design.

CREATIVE MEDIUM

Adobe After Effects

KEY FOCUS

Video Pacing & Audio Sync

Editing Suite

Editing Insight

How My Hobbies Power Business Computing

Each personal pursuit feeds directly into my academic and professional toolkit in Business Computing: gaming sharpens strategic composure and spatial logic, Java and C++ strengthen software architecture, and video audio editing elevates digital content delivery.
