PAGE 4 • PASSIONS & PURSUITS

Interests & Creative Hobbies

Beyond lectures and computing assignments at UMSKAL, these four pursuits keep my mind sharp, my creativity flowing, and my body active.

All Hobbies
Gaming
Coding
Video & Graphic Editing
Playing Rollerblade

TACTICAL PLAY

Gaming

Engaging in tactical multiplayer, open-world adventures, and competitive titles. Gaming trains rapid decision-making, strategic resource management, spatial awareness, and team communication.

PLATFORM
PC & Console

CORE BENEFIT
Tactical Reflexes

Gaming Lore 🎮

Gaming Insight

DEVELOPMENT

Coding & Web Development

Writing clean, functional code and architecting responsive web interfaces. As a Business Computing student, coding is the vehicle that transforms commercial ideas into living digital solutions.

CORE FOCUS
HTML5 • CSS • JS

MINDSET
Logic & Problem Solving

Coding Stack 💻

Why I Code

MEDIA PRODUCTION

Video & Graphic Editing

Crafting engaging video edits, dynamic montage pacing, motion graphics, and sleek visual banners. Editing teaches me how visual rhythm and aesthetic balance captivate audience attention in e-commerce.

CREATIVE MEDIUM
Video & Graphics

KEY FOCUS
Pacing & Color Grade

Editing Suite 🎬 | Editing Tip

ACTIVE LIFESTYLE

Playing Rollerblade

Cruising on inline skates across smooth park trails, waterfront promenades, and urban circuits. Rollerblading provides an invigorating cardio workout, building balance, agility, and mental clarity.

ACTIVITY TYPE
Inline Skating

BENEFIT
Balance & Agility

Skate Notes 🛼 | Skate Vibe

How My Hobbies Fuel Business Computing

Each personal interest feeds directly into my academic and professional toolkit in Business Computing: gaming sharpens strategy, coding executes technical logic, editing elevates digital marketing, and rollerblading keeps me physically energized.

Gaming
